

ALEXANDER OKHOTIN: CURRICULUM VITÆ

17 September A.D. 2017

Education and degrees

September 1996–June 2001. Moscow State University named after M. V. Lomonosov, Faculty of Computational Mathematics and Cybernetics, *Diploma with honours* in applied mathematics and computer science.

December 2002. Moscow State University named after M. V. Lomonosov, *Candidate of science* in discrete mathematics and mathematical cybernetics. Supervised by Dr. Vladimir A. Zakharov. Thesis title: “Complexity issues in the analysis of conjunctive grammars”.

October 2001–October 2004. Queen’s University (Kingston, Ontario, Canada), School of Computing, *Ph. D.* in computer science. Supervised by Dr. Kai Salomaa. Thesis title: “Boolean grammars: expressive power and parsing algorithms”.

April 2009. University of Turku (Finland), Department of Mathematics, *Docent* (habilitation) in mathematical foundations of computer science.

Positions held

January 2001–September 2001. Keldysh Institute for Applied Mathematics of Russian Academy of Sciences (Moscow, Russia), *research assistant* in parallel programming, part-time.

October 2001–October 2004. Queen’s University (Kingston, Ontario, Canada), School of Computing, *teaching assistant* and *research assistant*.

November 2004–March 2006. University of Turku (Turku, Finland), Department of Mathematics, *postdoctoral researcher*.

April 2006–July 2006. Rovira i Virgili University (Tarragona, Spain), Department of Romance Philology, *Juan de la Cierva researcher*.

August 2006–July 2011. Academy of Finland; University of Turku (Turku, Finland), Department of Mathematics, *Academy Research Fellow* (akatemiätutkija).

January 2012–December 2014. University of Turku (Turku, Finland), Department of Mathematics; Turku Collegium for Science and Medicine, *Collegium researcher*.

January 2015–December 2015. University of Turku (Turku, Finland), Department of Mathematics and Statistics, *senior researcher*.

March 2016–August 2016. University of Turku (Turku, Finland), Department of Mathematics and Statistics, *researcher funded by the Finnish Cultural Foundation*.

September 2016–present. St. Petersburg State University (Russia), educational programme in Mathematics, *(full) professor*.

Research interests

Logical theory of formal grammars; parsing algorithms; complexity questions in finite automata; language equations.

Students supervised

Artur Jeż, Ph. D. (April 2007–September 2010) Institute of Computer Science, Wrocław, Poland), supervised jointly with Prof. Krzysztof Loryś. Thesis title: “Conjunctive grammars and equations over sets of natural numbers”, defended on 14 September 2010, with distinction. Polish Prime Minister’s Award for an Outstanding Ph. D. thesis (2011).

Tommi J. M. Lehtinen, Ph. D. (September 2007–March 2013) Department of Mathematics, University of Turku, Finland. Thesis title: “Numbers and languages”, defended on 15 March 2013.

Mikhail Barash, Ph. D. (September 2011–September 2015) Department of Mathematics and Statistics, University of Turku, Finland. Supervised jointly with Prof. Tero Harju. Thesis title: “Defining contexts in context-free grammars”, defended on 25 September 2015.

Refereed journal papers

1. “Conjunctive grammars”, *Journal of Automata, Languages and Combinatorics*, 6:4 (2001), 519–535.
2. “Top-down parsing of conjunctive languages”, *Grammars*, 5:1 (2002), 21–40.
3. “LR parsing for conjunctive grammars”, *Grammars*, 5:2 (2002), 81–124.
4. “Kon’yunktivnye grammatiki i sistemy yazykovykh uravnenii”, in Russian, *Programirovanie*, 28:5 (2002), 3–11.
 - English translation: “Conjunctive grammars and systems of language equations”, *Programming and Computer Software*, 28:5 (2002), 243–249.
5. (with K. Salomaa and M. Domaratzki) “One-visit caterpillar tree automata”, *Fundamenta Informaticae*, 52:4 (2002), 361–375.
6. “On the closure properties of linear conjunctive languages”, *Theoretical Computer Science*, 299:1–3 (2003), 663–685.
7. “A recognition and parsing algorithm for arbitrary conjunctive grammars”, *Theoretical Computer Science*, 302:1–3 (2003), 365–399.
8. “The hardest linear conjunctive language”, *Information Processing Letters*, 86:5 (2003), 247–253.
9. “Efficient automaton-based recognition for linear conjunctive languages”, *International Journal of Foundations of Computer Science*, 14:6 (2003), 1103–1116.
10. “O slozhnosti zadachi generatsii strok”, in Russian, *Diskretnaya Matematika*, 15:4 (2003), 84–99.
 - English translation: “On the complexity of the string generation problem”, *Discrete Mathematics and Applications*, 13:5 (2003), 467–482.
11. (with M. Domaratzki) “Representing recursively enumerable languages by iterated deletion”, *Theoretical Computer Science*, 314:3 (2004), 451–457.
12. “On the equivalence of linear conjunctive grammars to trellis automata”, *RAIRO Informatique Théorique et Applications*, 38:1 (2004), 69–88.

13. “On the number of nonterminals in linear conjunctive grammars”, *Theoretical Computer Science*, 320:2–3 (2004), 419–448.
14. “Boolean grammars”, *Information and Computation*, 194:1 (2004), 19–48.
15. “State complexity of linear conjunctive languages”, *Journal of Automata, Languages and Combinatorics*, 9:2–3 (2004), 365–381.
16. (with K. Salomaa) “Contextual grammars with uniform sets of trajectories”, *Fundamenta Informaticae*, 64:1–4 (2005), 341–351.
17. “The dual of concatenation”, *Theoretical Computer Science*, 345:2–3 (2005), 425–447.
18. “A characterization of the arithmetical hierarchy by language equations”, *International Journal of Foundations of Computer Science*, 16:5 (2005), 985–998.
19. “Unresolved systems of language equations: expressive power and decision problems”, *Theoretical Computer Science*, 349:3 (2005), 283–308.
20. “Computational universality in one-variable language equations”, *Fundamenta Informaticae*, 74:4 (2006), 563–578.
21. (with J. Karhumäki and M. Kunc) “Computing by commuting”, *Theoretical Computer Science*, 356:1–2 (2006), 200–211.
22. “Generalized LR parsing algorithm for Boolean grammars”, *International Journal of Foundations of Computer Science*, 17:3 (2006), 629–664.
23. (with O. Yakimova) “Language equations with complementation: decision problems”, *Theoretical Computer Science*, 376:1–2 (2007), 112–126.

65. (with K. Salomaa) “Edit distance neighbourhoods of input-driven pushdown automata”, *Computer Science in Russia* (CSR 2017, Kazan, Russia, 8–12 June 2017), LNCS 10304, 260–272.
66. (with K. Salomaa) “The quotient operation on input-driven pushdown automata”, *Descriptional Complexity of Formal Systems* (DCFS 2017, Milan, Italy, 3–5 July 2017), LNCS 10316, 299–310.
67. (with S. Kuznetsov) “Conjunctive categorial grammars”, *Proceedings of the 15th Meeting on the Mathematics of Language* (MOL 2017, London, UK, 13–14 July 2017), ACL, 141–151.

Invited conference papers

1. “Seven families of language equations”, *AutoMathA 2007*, Palermo, Italy, 18–22 June 2007.
2. “Equations over sets of natural numbers”, *Finnish Mathematics Days 2008*, Helsinki, Finland, 3–4 January 2008.
3. “Formal grammars: a mathematical model of syntax”, *Spring School—A Week of Doctoral Studies* (TDPO 2011, High Tatras, Slovakia, 16–20 May 2011), 3–9.
4. “Parsing algorithms for formal grammars”, *Spring School—A Week of Doctoral Studies* (TDPO 2011, High Tatras, Slovakia, 16–20 May 2011), 63–72.
5. “Operations in formal grammars”, *16th Mons Theoretical Computer Science Days* (JM 2016, Liège, Belgium, 5–9 September 2016).

Contributions to other people’s invited talks

1. (for K. Salomaa) “Input-driven pushdown automata: nondeterminism and unambiguity”, *NCMA 2013* (Umeå, Sweden, 13–14 August 2013), books@ocg.at 294, 31–33.
2. (for K. Salomaa) “Input-driven pushdown automata with limited nondeterminism”, *Developments in Language Theory* (DLT 2014, Ekaterinburg, Russia, 26–29 August 2014), LNCS 8633, 84–102.

Contributions to refereed collections of papers

1. (with X. Piao and K. Salomaa) “Descriptive complexity of input-driven pushdown automata”, In: H. Bordihn, M. Kutrib, B. Truthe (Eds.), *Languages Alive: Essays Dedicated to Jürgen Dassow on the Occasion of His 65th Birthday*, LNCS 7300, 2012, 186–206.
2. (with J. Karhumäki) “On the determinization blowup for finite automata recognizing equal-length languages”, In: C. Calude, R. Freivalds, I. Kazuo (Eds.), *Computing with New Resources: Essays Dedicated to Jozef Gruska on the Occasion of His 80th Birthday*, LNCS 8808, 2014, 71–82.

Non-refereed conference papers

1. “O rasshirenii formalizma kontekstno-svobodnykh grammatik operatsiei peresecheniya” (On augmenting the formalism of context-free grammars with an intersection operation), in Russian, *Trudy IV Mezhdunarodnoi konferentsii “Diskretnye modeli v teorii upravlyayushchikh sistem”* (Proceedings of the Fourth International conference “Discrete models in the theory of control systems”, June 2000), 106–109.
2. “O P-polnote zadachi prinadlezhnosti dlya kon’yunktivnykh grammatik” (On P-completeness of the membership problem for conjunctive grammars), in Russian, *Diskretnaya matematika i matematicheskaya kibernetika: trudy mezhdunarodnoi shkoly-seminara, Ratmino, 2001* (Proceedings of the International School-Seminar on Discrete Mathematics and Mathematical Cybernetics).
3. “On systems of language equations with Boolean operations”, (*Algebraic Systems, Formal Languages and Conventional and Unconventional Computation Theory*, Kyoto, Japan, September 24–26, 2002), 165–176.
4. “Sistemy yazykovykh uravnenii i zamknutyie klassy funktsii algebrы logiki” (Systems of language equations and closed classes of logic algebra functions), in Russian, *Trudy V Mezhdunarodnoi konferentsii “Diskretnye modeli v teorii upravlyayushchikh sistem”* (Proceedings of the Fifth International conference “Discrete models in the theory of control systems”, May 2003), 56–64.
5. “Yazykovye uravneniya i modeli vychislenii” (“Language equations and models of computation”), in Russian, *Diskretnye modeli v teorii upravlyayushchikh sistem: VI Mezhdunarodnaya konferentsiya* (Proceedings of the VI international conference on discrete models in control systems theory, December 7–11, 2004), 129–134.
6. “Yazykovye uravneniya: popytka klassifikatsii” (“Language equations: an attempt of classification”), in Russian, *XIV Mezhdunarodnaya konferentsiya “Problemy teoreticheskoi kibernetiki”* (XIV International Conference “Problems of Theoretical Cybernetics”, Penza, Russia, May 23–28, 2005).
7. (with J. Karhumäki and M. Kunc) “O neupravlyaemoi perezapisi slov” (“On uncontrolled word rewriting”), in Russian, *Diskretnye modeli v teorii upravlyayushchikh sistem: VII Mezhdunarodnaya konferentsiya* (Proceedings of the VII international conference on discrete models in control systems theory, March 4–6, 2006).
8. “Representing a P-complete problem by small trellis automata”, *Workshop on the Complexity of Simple Programs* (Cork, Ireland, December 6–7, 2008), Cork University Press, 2008.

9. (with C. Reitwießner) “Parsing unary Boolean grammars using online convolution”, *Advances and Applications of Automata on Words and Trees* (Dagstuhl seminar 10501, 12–17 December 2010).
10. “Language equations: a story of computational completeness”, *Advances and Applications of Automata on Words and Trees* (Dagstuhl seminar 10501, 12–17 December 2010).
11. “Formal grammars: reappraising the foundations”, *First Russian-Finnish Symposium on Discrete Mathematics* (St. Petersburg, Russia, 21–24 September 2011).

Other non-refereed publications

Manuscripts submitted for publication

1. (with M. Barash) “Linear-space recognition for grammars with contexts”, September 2015.
2. “Describing the syntax of programming languages using conjunctive and Boolean grammars”, February 2016.
3. “Hardest languages for conjunctive and Boolean grammars”, May 2017.
4. (with D. Itsykson) “On the PSPACE-completeness of the partial string avoidability problem”, September 2017.

Non-scientific articles

1. (with M. Domaratzki and K. Salomaa) “Report on CIAA 2004”, *Bulletin of the EATCS*, 84 (2004), 231–234.

Volumes and special issues edited

1. (with M. Domaratzki, K. Salomaa and S. Yu) *Implementation and Application of Automata* (Proceedings of CIAA 2004, Kingston, Ontario, Canada, 22–24 July 2004), LNCS 3317, Springer-Verlag, 2004.
2. (with M. Kunc) *Theory and Applications of Language Equations* (Proceedings of TALE 2007, Turku, Finland, 2 July 2007), TUCS General Publications vol. 44, Turku Centre for Computer Science, Finland, 2007.
3. (with T. Harju, G. Rozenberg and A. Salomaa) “A bird’s eye’s view of theory”, *Theoretical Computer Science*, 410:30–32 (2009), special issue in honour of Juhani Karhumäki.

4. (with H. Jürgensen and J. Karhumäki) *Descriptive Complexity of Formal Systems* (Proceedings of DCFS 2014, Turku, Finland, 5–8 August 2014), LNCS 8614, Springer-Verlag, 2014.
5. (with H. Jürgensen and J. Karhumäki) “Descriptive complexity of formal systems”, *Theoretical Computer Science*, 610:A (2016), special issue for DCFS 2014.
6. (with J. Shallit) *Descriptive Complexity of Formal Systems* (Proceedings of DCFS 2015, Waterloo, Canada, 25–27 June 2015), LNCS 9118, Springer-Verlag, 2015.
7. (with J. Kari) SI for SOFSEM 2016, *International Journal of Foundations of Computer Science*, in progress.

Courses taught

January–May 2001. “Introduction to theoretical computer science”, Moscow State University named after M. V. Lomonosov, Advanced Education and Science Centre (Kolmogorov College), Moscow, Russia.

March 2006. “Languages”, International Ph.D. School in Formal Languages and Applications, Research Group on Mathematical Linguistics, Rovira i Virgili University, Tarragona, Spain.

January–April 2009. “Formal grammars”, University of Turku, Finland. 56 + 28 hours.

October 2009. “Formal languages and parsing”, Steklov Institute of Mathematics of Russian Academy of Sciences, St. Petersburg, Russia. Mini-course, 20 hours.

November 2009. “Formal grammars”, University of Wrocław, Poland. Mini-course, 18 hours.

May–June 2012. “Formal grammars”, University of Košice, Slovakia. Mini-course, 16 hours.

January–April 2013. “Formal grammars”, University of Turku, Finland. 56 + 28 hours.

September 2014. “Formal grammars”, St. Petersburg Academic University, 30 hours.

September–December 2016. “Theoretical computer science 1” (Discrete mathematics and algorithms), St. Petersburg State University. 45 + 14 hours.

September–December 2016. “Theoretical computer science 3” (automata, formal grammars, computational complexity), St. Petersburg State University. 32 hours.

January 2017. “Theoretical computer science” (for high school students), Sirius Education Centre, Sochi, Russia. Mini-course, 10 hours.

February–March 2017. “Theoretical computer science 2” (algorithms), St. Petersburg State University. 24 hours.

Software projects

March 1999–ca. 2002. Dolphin, a lexical analyzer generator. Available at <http://users.utu.fi/aleokh/dolphin/>.

April 1999–ca. 2002. (with V. Prus) Whale, a parser generator. Available at <http://users.utu.fi/aleokh/whale/>.

August 1999–present. Whale Calf, a parser generator for conjunctive grammars. Available at <http://users.utu.fi/aleokh/whalecalf/>.
